DETAILED ACTION

Page 2

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- The compounds according to claim 1 of formula la, wherein n is 0.
 These are classifiable in class 548, subclass 950.
- II. The compounds according to claim 1 of formula la, wherein n is 1. These are classifiable in class 548, subclass 100+.
- III. The compounds according to claim 1 of formula Ia, wherein n is 2. These are classifiable in class 544, subclass 1+.
- IV. The compounds according to claim 1 of formula la, wherein n is 3. These are classifiable in class 540, subclass various.
- V. The compounds according to claim 1 of formula lb, wherein n is 1.These are classifiable in class 548, subclass 948.
- VI. The compounds according to claim 1 of formula lb, wherein n is 2. These are classifiable in class 548, subclass various.
- VII. The compounds according to claim 1 of formula lb, wherein n is 3. These are classifiable in class 544, subclass 1+.
- VIII. The method according to claims 20-22, formula Ia, wherein n is 0. The claims are drawn to a method of treatment that is classifiable in class 514.
- IX. The method according to claims 20-22, formula Ia, wherein n is 1. The claims are drawn to a method of treatment that is classifiable in class 514.

Art Unit: 1623

- X. The method according to claims 20-22, formula Ia, wherein n is 2. The claims are drawn to a method of treatment that is classifiable in class 514.
- XI. The method according to claims 20-22, formula Ia, wherein n is 3. The claims are drawn to a method of treatment that is classifiable in class 514.
- XII. The method according to claims 20-22, formula lb, wherein n is 1. The claims are drawn to a method of treatment that is classifiable in class 514.
- XIII. The method according to claims 20-22, formula lb, wherein n is 2. The claims are drawn to a method of treatment that is classifiable in class 514.
- XIV. The method according to claims 20-22, formula lb, wherein n is 3. The claims are drawn to a method of treatment that is classifiable in class 514.

Inventions of Groups I-VII and Groups VIII-XIV are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the process for using the product as claimed can be practiced with another materially process of using that product, such as cytokine derivatives.

The inventions of Groups I-XIV are separate and patentably distinct because there is no patentable co-action among them and a reference anticipating one member will not render another obvious.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject

Art Unit: 1623

matter and different classification, a search of the fourteen groups designated above would impose an undue burden upon the examiner, and restriction for examination purposes as indicated is proper.

A telephone call was made to Anna Gil on June 29, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is requested to elect a specifically disclosed species of the invention to be examined for search purposes.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to PAUL V WARD whose telephone number is 571-272-2909. The examiner can normally be reached on M-F 8 am to 4 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James O. Wilson can be reached on 571-272-0661. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
